WORK EXPERIENCE

DEVIFY TECHNOLOGIES COMPANY, Ho Chi Minh City

09/2025 – 04/2026

QC/QA Engineer (Manual & Automation)

Insurance Management System (US Client) | Team size: ~25

- Analyzed BRD/SRS requirements and collaborated closely with BAs and Developers to clarify business logic and user stories.
- Designed, executed, and maintained comprehensive test suites (Functional, Regression, Integration) for complex business workflows.
- Performed REST API testing using Postman to validate payload data, response codes, and system integration points.
- Tracked, reported, and managed defects through ClickUp, ensuring timely resolution prior to release candidate builds.

Education System ERA | Main QA | Team size: 8

- Established and standardized the end-to-end QA workflow for both Web and Mobile platforms (iOS/Android).
- Served as the primary QA point of contact, proactively identifying edge cases and preventing critical defects from reaching production.

DATA DESIGN VIETNAM COMPANY, Ho Chi Minh City

10/2023 - 02/2025

QC/QA Engineer (Manual & Automation)

- Designed and maintained scalable Automation Test Frameworks using Java, Selenium WebDriver, TestNG, and Page Object Model (POM) for Blockchain and E-commerce platforms.
- Authored and executed regression test scripts, reducing manual testing effort by over 40% during release cycles.
- Conducted backend API and database verification using SQL queries (Joins, Stored Procedures) to ensure data consistency.

- Executed baseline performance test scripts using JMeter to help the engineering team identify response time bottlenecks early in the SDLC.

TESTING VIET NAM COMPANY, Ho Chi Minh City

05/2022 - 11/2022

Software Tester Trainee (Manual & Automation)

- Contributed to building automation scripts using Selenium WebDriver with Java and POM design pattern.
- Executed functional, UI/UX, and API test cases in Agile sprints; logged and verified bug fixes using Jira.

PROJECTS

SMART ATTENDANCE SYSTEM (FACE & ACTION RECOGNITION) 03/2022 - 09/2023

Project Contributor

- Role: QA & Feature Contributor.
- Contribution: Built and tested REST APIs, performed MySQL database validation, and conducted system accuracy testing for AI/computer vision models.
- Tech Stack: Python, OpenCV, YOLOv3, Angular, MySQL.

STUDENT MANAGEMENT SYSTEM

11/2024 - 03/2025

- Developed a student management system with CRUD functionalities
- Ensured data integrity and optimized database performance using MySQL

TECHNICAL SKILLS

Manual & API Testing: Web & Mobile Testing (iOS/Android), REST API Verification (Postman, Rest Assured), Cross-browser Testing

Automation & Performance Testing: Selenium WebDriver (Java), TestNG, Page Object Model (POM), Data-driven Frameworks, Jenkins (CI/CD integration awareness), Jmeter/k6 (Basic Load Testing)

Database & Querying: SQL: Experienced in writing complex queries (Joins, Subqueries) and executing/debugging Stored Procedures for data verification and test data setup. NoSQL: Practical experience with basic CRUD operations and document data inspection

AI-assisted Testing: Leveraging AI tools to optimize test case generation, refine automation scripts, and accelerate data validation

Tools: Jira, ClickUp, Git, Agile/Scrum

Other Skills: Technical English, basic Deep Learning (self-learning)
